manifested no consciousness of the change, devoted himself to Gabrielle, whom I had never seen looking so beautifut.

All my old moroseness returned upon me. I snapped at every one; I was so ories of the English people. One word modes and tenses have been shifte treasured up in the popular mind and enriched beyond descriptio

by the pathetic associations of of hundreds of years have been tortured critical inhor upon the comparison of the early manuscript texts, and thus been tem upon which the revisers appear to have acted is in our judgment altogether erroneous and deplorable. The writ-er then points out the position held by the Scriptures among English speaking people. "They have been known to them and loved by them for centuries," ne says, "and it is rash and reckless to attempting to harmonize it with the or regulate it by the doubtful standard of taste accepted by a motley combination of theologians and professers." Even the Lord's prayer, which every English speaking child learns to lisp at its mother's knee, has not been spared. The reviewers have handled it as a bold commentator might handle a notoriously corrupt chorus in Eumenides. The staccato, St. Paul's praise of charity, unequated in its own kind, for ringing and rythmical eloquence in the old ver-sion, is mangled and made unrecognizable by the senseless substitution of the is really obscured rather than elucidated by this change while the music of the scarcely a perceptible one swarm in every instance it is impossible not to r inferior to the present revisors in pre. snag, caused the crowd, out of curiosity, ise and exhaustive scholarship, were in-

and they have destroyed many of its his-torical associations.

In conclusion, the writer says, it re-mains now for the revisers to revise the text they have produced. If this new version is ever to be generally used, and to supercede the authorized version, nany of the alterations that have been

MBER CANE, OR SORGUM.

The discovery and development of amber cane, its hardiness in Northern latitudes, and its proved success as sugar-producing cane, have given a new impetus to the cultivation of sorghum, which hids fair to make it an important and permanent farm crop throughout the North-west. For the purpose of aiding the inexperienced, the following condensed directions have been compiled from the most approved sources, on the culture of this important product:

SEED.—Pure seed should be obtained from reliable sources, using, say, two or from reliable sources, using, say, two or three pounds to the acre. Seed should be obtained from a different locality every two or three years, as experience has shown that it deteriorates by repeated replanting in the same locality.

Soil.—A rich, warm, sandy loam, with sandy or gravelly subsoil, is the lost form.

overved agriculturist confidently because of the control of a litter of the control of a litter of the control of the control

Mary is a good gal, but she hain't even second fiddle on style or good looks, and Uncle Sile knows that as well as I do. Now, then, they've been talking about a breach of promise suit on me, and I a breach of promise suit on me, and I won't deny they've got a case. I've been willing all along to settle damages on a fair basis, but we couldn't just agree on what was fair. Uncle Silas comes over and says you are here, and he offers to leave it out to you if I will, and so if you will act on the case we'll come to some conclusion."

"Where is Mary?" asked the Detroiter.

"Down in Martin county, Indiana," answered the father.

"Down in Martin county, Indiana," answered the father.

"Down in Martin county, Indiana," answered the father.

"And she writes home," added Josephus, "that she's had nine offers of marriage in two weeks. Them Hoosiers is just swarming for her. Them nine of learning damages."

Answered the father.

"And she writes home," added Josephus, "that she's had nine offers of marriage in two weeks. Them Hoosiers is just swarming for her. Them nine of learning damages."

Answered the father.

his money accounts with the members to congress. The regular way for the

eongressmen to get their money is from the United States treasury, on certifi-cates signed by the speaker of the house.

THE NEWS.

The Victoria Disaster LONDON, Ont., May 25 .- During the joyment in the various excursions leading from the city to adjoining towns and for others the chief out-door attracwas rendered more attractive from the fact that this was the first day of the season for boats to run regular trips, and this circumstance, taken in connection with the public holiday, naturally drew large crowds of pleasure seekers to the river. Trips were made down the river, a distance of about four miles, to Spring Bank a place of popular resort, where the city water works are located, and three or four local steamboats took down intervals throughout the day.

About 4 o'clock in the afternoon the

on the sergeant at arms as they need the money. The office of sergeant at arms is conducted on the order of a bank of deposit for members. Thompson, as did his predecessors, would draw large sums of money, keep it on hand and cash checks of members of Congress when presented to him. It seems he kept his own pay and accounts along with all others, and in using money he had on hand he went beyond his own funds and is unable to meet the checks of congressmen who did not Victoria, of the Thames Navigation Com-pany line, started from the dock on her checks of congressmen who did not draw their pay up to time. It some times happens that members leave money in the hands of the sergeant at arms for months. Under the new rules Thompson's bond is \$50,000, but as it is not under the new rules that the new rules the new fourth and last trip for the day with a large load of passengers of all ages—variously esti-mated at 400 to 600. All went well on heavily laden that she shipped water in small quantities occasionally, when the gressmen, it is claimed that his bondscrowd would happen to surge to any parcrowd would happen to surge to any par-ticular side. On the return trip, when more than half way home, a slight commore than half way home, a slight commotion on the boat, said by some to have been the playful pranks of a number of youths on the lower deck, and by others ascribed to the boat striking on a others ascribed to the crowd, out of curiosity, handling such enormous sums of money as he has, some members have been accise and exhaustive scholarship, were infinitely their superiors in the rare and precious art of writing musical and masculine English prose. Had they purged the sacred text of errors which had crept into it, and placed where it was necessary they would have performed a useful and acceptable work; but in their efforts to attain a dry and merely nominal accuration of expression they have so revised of the boat. Sunk with the additional weight, a volume of water a foot or two in depth, poured in upon the lower deck, which was crowded with passengers. Instantly the crowd on both decks rushed to the other side, and their weight, together with that of the water shipped by the boat caused a lurch in the opposite direction. It was then that the disaster occurred. The side of the boat sank in the water to a debt. The indications are that the re-

duction of the debt for May will be up-wards of \$11,000,000.

The officials of the treasury depart-ment who have been implicated in the treasury custodian ring, still retain their positions, and therefore exercise some authority over the members of the in-vestigating committee. This fact to-gother with certain efforts to have wit-nesses make some corrections has led to an impression that the affair may end in whitewashing, but this will not be the case. Secretary Windom was put crushing them on the deck and rendering escape out of the question. It is impossible to describe the scene that followed. The boat continued to settle on its side deeper into the water, taking with her many of the passengers who were stunned by the fall of the upper deck and were unable to help themselves. Scores sank in the water without an effort, while many others, who were predictive in the investigation was ordered, and the secretary requires full air with their vain appeals for that such air with those of the passengers who are cor which those of the passengers who
